

# Americo Veloz

## Systems & Cybersecurity Administrator

862-295-8690 | Allentown, PA | Legally authorized to work in the US

[americoveloz@gmail.com](mailto:americoveloz@gmail.com) | [Linkedin.com/in/americoveloz](https://www.linkedin.com/in/americoveloz) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Infrastructure and Information Security Specialist with over 14 years of experience in network infrastructure, threat mitigation, and IT governance. Specialist in implementing and managing complex network environments using **Cisco, Fortinet, VMware, and PRTG**. Passionate about engineering fault-tolerant, high-availability environments and delivering comprehensive technical documentation to streamline infrastructure management.

## TECHNICAL SKILLS

- **Network Infrastructure** Fortinet Firewalls (UTM/QoS), Cisco Routing & Switching (CCNA), VPNs, PRTG Network Monitoring.
- **Identity & Access Management (IAM)**: Active Directory, GPO, Access Control Lists (ACLs).
- **Security Operations**: Threat Detection, Incident Response, Log Analysis (Syslog, FortiAnalyzer), Malware Removal.
- **Data & Automation**: ETL Processes, Business Intelligence (BI), Scripting, Power BI.

## PROFESSIONAL EXPERIENCE

### Systems & Cybersecurity Engineer

Velz Soluciones Tecnologicas S.R.L. | July 2019 - March 2026

- Designed and deployed high-availability, multi-vendor network infrastructures (VMware VMs, routers, switches, firewalls) for diverse client environments, including call centers and financial institutions, while enforcing robust security perimeters.
- Resolved persistent network outages by identifying EIA/TIA 568 cabling violations and replacing failing legacy hardware.
- Deployed QoS protocols across network devices to resolve latency issues and persistent disconnections.
- Conducted wireless spectrum analysis to identify RF affecting WLAN quality; reconfigured devices to eliminate interference and restore stable Wi-Fi.
- Diagnosed and resolved critical server cluster instability by identifying and remediating systemic software bugs and corrupted DLLs.

## **Senior Systems Administrator**

Metrogas | November 2016 - June 2019

- Administered all servers, network, and security infrastructure for a multi-site energy distribution company.
- Converted legacy physical servers into high-availability virtualized environments to ensure continuous service uptime.
- Automated server and user data backup using custom batch scripts, reducing manual workload and ensuring consistent daily recovery points.
- Documented all networking and server infrastructure, establishing a standardized IT asset inventory and configuration baseline.
- Deployed pfSense open-source firewall, hardening perimeter security and enforcing internet access policies across the organization.

## **Infrastructure Engineer**

Cooperativa La Altagracia, Inc. | February 2015 - June 2016

- Utilized FortiAnalyzer to identify high-bandwidth consumption patterns, implementing Quality of Service (QoS) rules on Fortigate firewalls to ensure business continuity across branches.
- Managed high-availability virtualization environments using VMware ESXi, reducing hardware costs and improving disaster recovery capabilities.
- Deployed PRTG infrastructure monitoring systems, achieving 99.9% service uptime through proactive alerting and issue resolution.

## **Database and BI Analyst**

Edenorte | February 2011 - February 2015

- Data Automation & BI: Automated reporting workflows leveraging advanced scripting and ETL, reducing report generation time for senior management.
- Developed automated reporting pipelines using scripting and database tools, replacing manual Excel-based workflows and enabling real-time KPI dashboards for the Loss Reduction Directorate.

## **EDUCATION**

- **Master in Cybersecurity** | Camilo Jose Cela University, Spain (2019)
- **B.S. in Telematics Engineering** (Magna Cum Laude) | PUCMM, D.R. (2011)

## **CERTIFICATIONS (Highlights)**

- **Splunk Core Certified Power User** (2026)
- **CompTIA Cybersecurity Analyst (CySA+)** (2022)
- **Fortinet NSE 4 – Network Security Professional** (2023)
- **Cisco Certified Network Professional Course** (2014)
- **Azure Fundamentals (AZ-900)** (2023)
- **Ethical Hacking with Kali Linux** (2023)
- **ScrumStudy Scrum Fundamentals Certified (SFC)** (2020)
- **LPI Linux Essentials** (2016)
- **Cisco Certified Design Associate (CCDA)** (2019)
- **Cisco Certified Network Associate Security (CCNA Security)** (2016)
- **Cisco Certified Network Associate (CCNA)** (2013)

## **LANGUAGES**

- **English:** Advanced
- **Spanish:** Native
